

Champion System Jacket Selection Guide

Clear Rain Jacket

Seamless clear rain jacket which is both breathable and wind/water resistant. Designed to be easily folded into a small package in your back pocket. It'll be there when you need it but won't slow you down.

Wind Guard Jacket

A lightweight shell jacket designed to take the edge off of cold or wet conditions. Compact enough to roll up into a jersey pocket. When you're not sure what the day will bring, pack your Wind Guard.

Thermoshield Tech Fleece Jacket

Our all-rounder go-to jacket for moderate winter conditions combining our CS Tech Fleece with our wind resistant Thermoshield material. The perfect jacket for autumn and winter in warmer climates.

Thermoshield Winter Jacket

This jacket is made from our exclusive ThermoShield, wind resistant material lined with a brushed fleece for comfort. A three layer fabric construction provides the absolute best in cold weather protection.

APEX Winter Shield Pro Jacket

A proper heavy duty winter jacket. A three layer bonded winter fleece fabric that keeps the rider warm in cold conditions, but is able to breathe. This jacket can handle the coldest conditions.
